

## WARRANTY

### PRODUCT

**Brand** : Uni - Jet & Euro - Jet  
**Model** : .....  
**Delivery date** : .....

**Type** : Tilt&Turn  
**Warranty period** : 5 (five) years  
**Maximum repair period** : 30 (thirty) workdays  
**Maximum sash weight** : 100

### WARRANTY COVERAGE

This warranty covers only the entire product and its integrated parts within the warranty period stated above, provided that the following terms of warranty below are met.

Upon determining of any condition failing to comply with the terms of warranty, as to the personnel authorized by Gretsch-Unitas Yapı Elemanları Sanayi ve Ticaret A.Ş., the liabilities arising from this warranty are terminated.

The time elapsed during the repair of the product - the repair period - shall be added onto the warranty period.

The repair period starts with the delivery of the product to Gretsch-Unitas Yapı Elemanları Sanayi ve Ticaret A.Ş.

If the repair cannot be accomplished within the maximum repair period, a new product with equivalent specifications shall replace the product under repair.

For the repair work or replacement of the product covered by the warranty, the customer owning the product shall not be charged any fee.

### TERMS OF WARRANTY

The product should be used complying with the limits (dimensions, sash weight etc.) stated within technical specifications and the door or window profile characteristics.

Installation of the products at manufacturing dealers should be carried out in compliance with the requirements specified within the catalogues and/or the installation schemes of the product.

Any failure or loss of function arising from any defect of other parts of or faulty installation onto the door or window shall not be covered by the liabilities under the warranty of the product. Such cases of defect or failure shall only be evaluated by the personnel authorized by Gretsch-Unitas Yapı Elemanları Sanayi ve Ticaret A.Ş.

If any part of an installed product needs to be replaced, this replacement shall be carried out by the authorized personnel of the manufacturing dealer or by the personnel authorized by Gretsch-Unitas Yapı Elemanları Sanayi ve Ticaret A.Ş.

Any failure or loss of function arising from misuse shall not induce any liability under the warranty of the product, in cases of;

- the presence of any object obstructing normal functioning of the door or window carrying the product;
- the product being exposed to additional loads beyond specified limits for use (e.g. children swinging on the sashes etc.) or;
- any other way of misuse as specified above within the product catalogues.

The product should be protected against being spotted during any surface work (painting, rendering etc.) carried out in the vicinity of the doors or windows carrying the product.

Periodically, maintenance should be carried out as follows at least once a year:

- Moving parts of the product and point of locking should be lubricated and checked for functionality.
- For safety reasons, major parts should be tested regularly and checked for wearing. As necessary, setscrews should be tightened or replaced.
- Only non-abrasive cleaning and maintenance material of a chemical composition, which does not damage the anticorrosive coating of the product, should be used with the product.
